

catering

Living Food Lab is a teaching kitchen, serving delicious raw food and educating people to make conscious food choices. Our flagship location is at the Green School in Sibang Kaja, Bali, where we are raising a generation of sustainability leaders on organic plant food. Living Food Lab 2 is at Hubud, an innovative co-working space in Ubud, Bali. Between team building sessions and collaborative brainstorming, global nomads grab a green juice, a mango wrap or a raw vegan chocolate cheesecake.

Living Food Lab Catering brings our healthy and delicious cuisine to your home, party or gala. We can supply multiple courses from casual finger food to formal, gourmet plated dinners. Breakfast, lunch, dinner and dessert are all our pleasure. Are you wondering if we can cater an entire retreat? The answer is yes! Would like to know if we can cater monthly, bimonthly, or weekly gathering? Yes indeed, we have done that before and are happy to do it for you. We can also collaborate with caterers supplying those foods outside of our realm of raw food.

Our menus can incorporate flavors from across the globe. Our specialty is interpreting international flavor traditions into the world of raw food.

Contact us to see what a Raw Food Extravaganza could look like for you! We will work with you to make your foodie dreams come true!
